## Shenzhen MCD Electronics CO.,Ltd

### waterproof Camera:

- Dimension: 23mmx50mm.
- Flexible pipe: 940mm
- Camera casing: Stainless steel 304
- Camera lens: Sapphire blue
- Sensor dimension:1/4 inch
- Sensor pixel:PAL@720X576/NTSC: 720X480
- Lens visible angle: 120 degrees
- Camera adjustable angle: Arbitrary angle
- Camera light source: 12 LEDs
- Storage way: No DVR video recording function, can not storage image
- Waterproof standard: IP68
- Working voltage: DC 12V, working current: 100mA
- Rod Max length: 1.16m
- Working temperature:-10°C-50°C

### LCD Screen:

- LCD dimension: 4.3-inch, 16: 9
- Resolution:480\*320\*RGB
- Power supply:12V DC Built in lithium battery

**Packaging :** aluminum box , 54\*26\*45cm (5pcs/ctn , 14.5kg )

### Feature and Application:

It is our latest developed HD video searching system , with state-of-art innovation technology, It helps security personal to check clearly on front Video display the spaces where are narrow ,dark and cannot be reached by naked eyes, it will simplify troublesome inspection work and help save plenty of valuable time .improving security check efficiency ,the product Uses high-capacity Lithium battery for power supply which lasts 8 hours , avoiding frequent battery replacement ,the standard aluminum-alloy carry case is solid enough to prevent equipment from damage by drop ,shock or press
